**INVITATION
for Agriculture Practitioners
to Participate in NUTRIMAN FAB (Farmers Advisory Board)**

Dear Expert,

You have been recognized as agricultural expert with advanced and practical knowledge in the field of nutrient management for market competitive agri-industrial productions.

We are pleased to invite you to participate in the NUTRIMAN Farmers Advisory Board "FAB", which is aiming the selection of the best available nutrient recovery technologies and products for market uptake and commercial deployment promotion of Nitrogen/Phosphorus recovery innovations that are either in "close to market" status or already on the market and facing rapid market expansion.

NUTRIMAN¹ is a Nitrogen and Phosphorus H2020 Thematic network compiling knowledge for recovered bio-based fertiliser products, technologies, applications and practices; while connecting the EU market competitive and commercially "ready for practice" innovative results from high research maturity applied scientific programmes and common industrial practices, for the interest and benefit of agricultural practitioners.

NUTRIMAN is focusing on compiling knowledge and knowledge exchange of best practices and methodologies for innovative organic and low input farming in particular cost efficient and safe recovered N/P innovative fertilizer supply. For more information about the NUTRIMAN objective please visit: <https://www.nutriman.net/project/objectives>.

Targeted FAB members: farmers, farmer association, farmers groups, Chamber Agri, Producer Organizations and other agri expert stakeholders from the EU countries with market competitive agri industrial operational experience and knowledge.

ROLE of NUTRIMAN FAB: The NUTRIMAN will work in close connection with the selected Farmers Advisory Board (FAB) members. The NUTRIMAN FAB will act as a **consulting and advisory Board** to affect and impact on the implementation of the following specific tasks:

- Practice oriented evaluation and revision and expert consultation of the collected innovative N/P recovery technologies and products data information.
- Evaluation of the reduced list of technologies and products: identification of incentives and bottlenecks for adoption.

¹ <https://www.nutriman.net>

- Development of priority list of matured FP7/H2020/OGs innovative research results from the field of Nitrogen and P-recovery EU28 technologies and products.
- Providing advisory work for Practice Abstracts in the common EIP-AGRI format and training materials and
- Dissemination and exploitation.

Benefits and advantages for participation in the NUTRIMAN Farmers Advisory Board:

While Advisory Board members contributing with practice values to the project, vice versus in return the project is also providing them and their members high added value information as well, such as about new technologies, products and most importantly about all the aspects of the Circular Economy Fertilizers Regulation revision EC law harmonization latest status.

The selected NUTRIMAN Farmers Advisory Board members will gain several in-kind benefits and advantages to online support the selection of the best available nutrient recovery technologies and products for deployment/market uptake promotion of Nitrogen/Phosphorus recovery innovations, such as:

- a) You will be officially highlighted for the EC Commission as selected nutrient management and project expert.
- b) You will get access to the newest and high valuable Nitrogen/Phosphorus recovery technical data information and networks.
- c) You have the opportunity to receive valuable and advanced information about the innovative fertilizers, Circular Economy – Fertilizers Regulation revision and other related EU regulations under progress, with possibility of work out towards specific regional/local application scenarios.
- d) You are interconnected to our wide range networks.
- e) You have free entrance to the NUTRIMA organized conferences and workshops.

Condition of your participation in FAB:

Participation in the NUTRIMAN FAB is voluntary and free of charge.

As the NUTRIMAN project budget is low, **no direct financial remuneration is possible**. The NUTRIMAN Farmers Advisory Board is mainly operating digitally online. Concerning travels, this is to be noticed, that in most cases time saving webinar communication will be managed, and the project partners are visiting the Farmers Advisory Board members at their sites, so no travel is required from the FAB members.

Working language: English.

The organisation and name of the representative of the NUTRIMAN FAB will be published on the NUTRIMAN website (<https://www.NUTRIMAN.net>).

External partners **must show true value knowledge** and serious interest for the results and this impact driven project, invest own time and effort in the NUTRIMAN project that is demonstrating that they consider the project as truly added value and if needed they cover their own costs as well. In reward, the Advisory Board members having full access to the valuable project results, having vice versus access to the projects partners expertise, which can serve as education and training purposes as well.

Personal data protection: During our work the EU General Data Protection Regulation 2016/679 (April 28, 2016) of the European Parliament and of the Council applied and followed. Therefore, please carefully read the enclosed Information Sheet which is describing to you how we processing and handling your personal data. If you agree on participation in the NUTRIMAN FAB please sign in the enclosed Contents Form together with your Express of Interest. Please do not provide personal information related to third party.

Submission requirements:

- One package of signed and scanned **Content Form**, Your **Expression of Interest**, and your **CV**, - to be sent to the email address of the Coordinator: Edward Someus, biochar@3ragrocarbon.com
- Subject of your application: Application for "NUTRIMAN" FAB.
- Deadline for sending back the application: February 15, 2019

If you need any additional information related to the H2020 NUTRIMAN project or this FAB please contact to the project Coordinator.

Sincerely yours, For and behalf of the NUTRIMAN consortium.

Edward Someus (NUTRIMAN coordinator, nutrient recovery S&T senior engineer)
