

## Basic criteria for open publication of innovative N/P recovery technologies/products on the Nutriman Farmer Platform

1. To be in the scope of NUTRIMAN Thematic Network:
  - a. **Product:** recovered Nitrogen/Phosphorus bio-based fertilisers.
  - b. **Technology:** Nitrogen/Phosphorus specific nutrient recovery technologies.
2. Product and technology already reached “ready for practice” maturity status or at early stage on the market but not sufficiently known or used by practitioners:
  - a. **at least successfully completed TRL6 maturity level** reached (Technology Readiness Level (<https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/support/faq/2890> )
3. Applicant is submitting the minimum required **mandatory technical documents** as described in the document titled "NUTRIMAN Guideline how to connect and link" and NUTRIMAN templates:
  - The **fully filled Product/Technology Info sheet template** is a mandatory element for publication of product/technology on the NUTRIMAN Farmer Platform. Content
  - The **fully filled EIP-AGRI abstract template** is a mandatory element for publication of product/technology on the NUTRIMAN Farmer Platform.
    - At least one high resolution representative picture showing the product/technology in png or jpg format.
    - However, this is the best interest of the vendor to also submit a high quality other supporting documents such as professional info-graphics, video (youtube link), training material.
4. Applicant is submitting the required mandatory **legal document** meeting the GDPR requirements. The signed consent form is mandatory requirement.

### Who and how we make a decision?

The members of the NUTRIMAN consortium (<https://nutriman.net/project/consortium>) will evaluate the comprehensive documents submitted by the applicant as of Criteria 1 through 4 in 15 days after receiving the full set of application with all required elements. If additional any of Pont 1-4 is missing or additional clarification is needed representative of the NUTRIMAN project will contact to the applicant and requesting additional information.

The applicant will be informed by e-mail on the final decision at least 15 days after receiving comprehensive and corrected documents.

NUTRIMAN reserves the right to not publicise and/or link those technologies and products which are not in the scope of our work field and/or the minimum required mandatory technical/legal elements and documentation are missing.

After acceptance and Farmer Platform public listing detailed evaluation will be made by the Farmers Advisory Board to select 25 best practices for multi lingual translations.
