High np pelletized digestate from animal manure and organic waste by "Arbio/Npirrik"-process

https://nutriman.net/farmer-platform/product/id_270

KEY PRODUCT FACTS

- In EU Fertiliser regulation dried digestate is PFC 1 A (organic fertiliser) or PFC 3 A (organic soil improver). Certified digestates also eligible as Component Material Category (CMC) 5.
Low priced (circa 45€/t)
- Animal manure status
- Free of pathogens, insect larvae and weed seeds
- Improves soil biodiversity through high organic carbon (40% dm)

HOW TO USE

- **Type of farming:** low input, conventional
- **Application doses:** average 2-4 t/ha (depending on soil, season, crop,...)

AREAS OF APPLICATIONS

- **Cultivation methods:** open field, greenhouse
- **Recommended crops:** fresh vegetables and strawberries, potatoe, sugar beet, fresh vegetables and strawberries, grapes, permanent crops (fruit trees), permanent grassland, etc

Nutrient content
5,9% N
3% P2O5

This project has received funding From the European Union's Horizon 2020 research and innovation programme under grant agreement No. 818470
