Compost from green waste and pre-digested vegetable, fruit and garden wastes by “IOK Afvalbeheer” process

https://nutriman.net/farmer-platform/product/id_272

KEY PRODUCT FACTS

- Soil improver with soil-like texture (particle size < 12,5 mm)
- Produced from selectively retrieved organic waste streams
- Slow nutrient release
- High organic carbon content: > 20% (dm)
- Improves soil biodiversity & fertility
- Increases water retention capacity – reduces vulnerability to erosion and droughts
- In EU Fertiliser regulation this vegetable-fruit-garden (vfg)-compost is a PFC 3 A ‘Organic Soil Improver’. It is also eligible as Component Material Category (CMC) 3 ‘Compost’
- Free of pathogens, insect larvae and weed seeds
- Sieved and inspected (input/output) on visual contaminants

HOW TO USE

- Application doses: 10-15 t/ha (depending on soil, season, crop, etc)

AREAS OF APPLICATIONS

- **Type of farming:** organic, low input, conventional
- **Cultivation methods:** open field, greenhouse
- **Recommended crops:** potato, wheat, cabbage, pumpkin, cucumber, tomato, leafy vegetables, celery, leek and other crops in agriculture – also use in horticulture, floriculture and arboriculture

Nutrient content
1,79-2,1% N% (dm)
0,8-1,2% P₂O₅ % (dm)
1,1-1,8 K₂O% (dm)

This project has received funding From the European Union's Horizon 2020 research and innovation programme under grant agreement No. 818470
