DETRICON

Ammonium nitrate from liquid fraction of manure, digestate or other waste stream by "Detricon" process

https://nutriman.net/farmer-platform/product/id_295

KEY PRODUCT FACTS

- Liquid inorganic fertilizer.
- Ammonium nitrate
- 10 or 18 mass% of nitrogen
- 50/50 ammonia and nitrate
- A clear and technical pure solution
- Colourless to pale pink solution

HOW TO USE

- Special attention to foliar application: spraying can give leaf damage
- It is recommended to inject it directly into the soil
- Type of farming: conventional
- Recommended dose: 0.5-1 ton/ha.

AREAS OF APPLICATIONS

- Open field crops or greenhouse crops, such as, corn, grass, vegetable

Nutrient content
N 18%
P 0%
K 0%

This project has received funding From the European Union's Horizon 2020 research and innovation programme under grant agreement No. 818470
